Hi Dave and Pete,

Attached is a route traversing Aolele St. and jogging up to Ualena St. putting the rail farther away from the airport as it nears the runway ends. You may want to share this with FTA.

Please call me if you have any questions.

Thank you.

Steven Wong
Program Manager
FAA, Honolulu Airports District Office
(808) 541-1225

Thanks.

Steve - could you share this idea with dave in your environmental office
and perhaps he might share with ray at FTA?

Subject: Rail on Koapaka

The other option mentioned today was Koapaka and this might have been
attractive because we could have sold or given the City an easement on the
Mauka side of our Ualena properties thus not interfering with Cargo city.
But in looking at it today the Airport Center (whale building outlined in
red) is in the way and we couldn't veer Mauka until after it. But east of
the Airport center is fairly undeveloped with empty lot car storage and
only low rise buildings.
